ABOUT IIT KHARAGPUR

Kharagpur is the fifth largest city of West Bengal. It was chosen as the location for the first campus of the Indian Institute of Technology (IIT). The IITs are the premier technical education institutes in India and are internationally recognized for their academic and technical excellence. IIT Kharagpur started in the old Hijli Detention Camp where some of India's great freedom fighters toiled and sacrificed their lives for Indian independence. The history of IIT Kharagpur is intimately linked with the history of the Hijli Detention Camp. This is possibly one of the very few Institutions anywhere in the world which started life in a prison house. IIT Kharagpur will be celebrating its platinum jubilee in 2025 - 2026

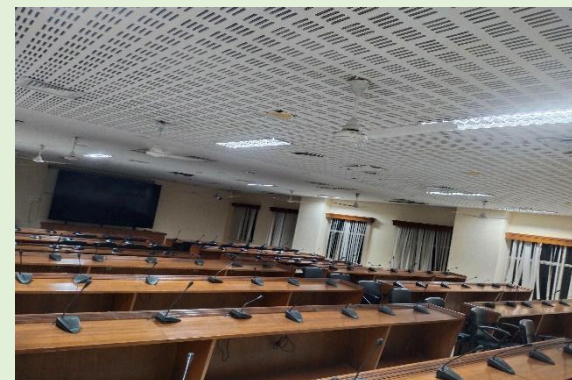

ABOUT THE DEPT. OF OCEAN ENGINEERING AND NAVAL ARCHITECTURE

The Department of Ocean Engineering & Naval Architecture was established in 1952. During more than 70 years of its existence, the department has made significant contributions to the development of shipbuilding and shipping industries in the country including the Indian Navy, Indian Coast Guard, DRDO and other allied organizations.
